PFAS Action: Governments, Retailers, and Brands are Stepping Up

State as well as federal, tribal, and local governments, retailers and brands are taking action to address the PFAS crisis. PFAS contamination is widespread and will cost taxpayers billions to clean up. More action must be taken now to prevent harm and end the use of these toxic “forever” chemicals that impact our health. The state of Maine adopted a policy in 2021 to **ban all uses** of PFAS unless the use is necessary for public health. Highlights of growing momentum in food packaging, water, firefighting foam, textiles, and litigation include:
